All restrictions are mandatory. Any underlined text indicates a requirement that must be met in addition to the others.

Please note that the terms 'functional arm' and 'functional leg' include prosthetic limbs, provided they are securely attached. Additional restrictions apply to Sleipnir, Thor, Loki, and The Wave.

*Sleipnir and Thor must have two full biological legs with feet to ride. Loki must have one biological leg with foot prosthetic with other leg must be removed.

‡ The Wave must have two full biological legs with feet and one biological arm with the ability to grasp.

Please be advised that all attractions have specific requirements, including height and age restrictions. A comprehensive list of these requirements is available on our website (draytonmanor.com/ride-restrictions) these are also located on the ride information boards at each individual attraction. Some attractions feature sensory effects; guests are encouraged to consult the ride information boards for further details.
